**BELVIDERE
VT-109 Culvert Project
POSTPONED**

The Vermont Agency of Transportation in conjunction with A.L. St. Onge Contractor, Inc. project to replace the aging 48" metal culvert approximately 2 miles south of the VT Route 109 and VT Route 118 intersection has been postponed until the 2024 construction season. Unfortunately, due to the worldwide material shortage, the pre-cast box culvert will not be able to be fabricated in the 2023 construction season.

A public meeting will be rescheduled in 2024 prior to any construction activities to begin.

SPECIAL NOTICE: Please email sbarrett@coibsinc.com, reference Belvidere Culvert, if you would like to received weekly project updates via email.
